

Air Slide Table Series MXS

14, 18, 212, 216, 220, 225

Work table and air cylinder are integrated compactly.
Air slide table is ideal for precise assembly.

Repeatability of work mounting

Pin holes for mounting

Flange with mounting
Mount to work for high load strength

Flush mountable auto switches

An auto switch can be in the leading position of the load in flush with the surface

Dual piston rod

The dual piston rod mounts from the front or the rear

With shock absorber and
Symmetric style can be used

Axial mounting is possible

Since there is a wide air supply passage the amount of air with low resistance is possible

Body mounting

Pin holes for mounting

Transfer to body mounting

Various options

- **Table options**
 - With shock absorber
- **Functioning options**
 - With auto mechanism
 - With auto mechanism, shock and back mounting

Mounting is possible in three directions

Table mounting, body mounting, axial mounting

Variations

Model	Stroke (mm)	Standard table (mm)								Table Auto Shock Absorber			Functioning table			Auto table			
		14	18	212	216	220	225	230	235	Shock absorber	Auto	Shock absorber	Auto	Shock absorber	Auto	Shock absorber	Auto	Shock absorber
